

5 We can have mana in titles

We can also have mana in paragraphs, e.g. green mana  or black and red hybrid mana . Or maybe we want to have the mana cost of Progenitus: . Now that's a long mana cost.

We can also include mana symbols in equations:

$$\sum_{k=1}^6 \text{mana symbol} = 3 \times (\text{green mana} + \text{red mana})$$
